Linked 

I'm a full-stack software engineer with a passion for building and deploying robust web applications. Currently, I specialize in the **Ruby on Rails** framework and **React**, developing scalable web services at CareerBuilder. I enjoy working across the stack and continuously refining my skills to deliver high-quality, production-ready software.

WORK EXPERIENCE

CareerBuilder | Senior Software Engineer

June 2019 – present

- Developed and deployed scalable **Rails + React** services for Ecommerce and AI-driven job platform
- Automated **CI/CD** pipelines using Jenkins and **ECS** etc
- Maintained high test coverage with **RSpec** for mission-critical APIs

4moles | Engineering Lead

June 2017 – May 2019

- Led a **team of 4 developers** across **web & mobile** platforms, delivered an improved user experience that led to increased customer retention.
- Designed complete booking engine using **Redis** and **Action Cable**.
- Architected a scalable deployment pipeline on DigitalOcean using Capistrano.
- Implemented CloudFlare as both WAF and CDN

Yatra Online Pvt Ltd | Senior Engineer

August 2014 – May 2017

- Worked on multiple projects on tech stacks for Java and PHP.

Emaadhyam Online Pvt Ltd | Software Engineer

September 2011 – July 2014

- Worked on multiple projects on the Rails platform.
